The passing of George Mullin to the minors was the subject of much conservation among the players today. It has definitely been settled that Mullin will go to Montreal, as the Canadians kicked in with the best offer for the veteran service.

Mullin leaves with the best wishes of the Washington players, and the suddenness of Griff's act in arking for waivers and disposing of the former Tiger star what set other veterans on the local club, planking, for they know not where the great ax will fail.

There is always the chance that an inmy will lay either Plank or Bender low, and that something might happen to one of that great quartet. Mclanes, Collins, Barry, and Baker, and Mack has no, authetitutes able to fill the shoes of any of these men. Although the season is half over, the Mackmen are not so far ahead as to preclude catching up with them.

On the other hand, the Nationals, with Eddie Foster back in the line-up, seem to have hit their true stride. Since leav-ing home six games have been played, and of this number the Climbers have only dropped one; and as none of the Western clubs are feared, there is every reason to believe that the Griffmen will shave both Chicago and Cieveland down where they belong and return East in second place.

"I don't care who the ball player may he," asserts Moeller, "that player is probably more interested in his hits than almost anything else. If he picks up, a paper, and sees that he has dropped down ten or fifteen points he goes into the game that afternoon move determined than ever to make up lost ground, with the result that his times out of ten he talls down, and that only hy keeping his mind off his hatting awerage can he get back into his real form."

Moeller's declaration is unique in the annain of the national game,

Speaking of Moeller reminds the writer of a little incident in Boston, during the second game of the Red Sox series.

While chaning after a fly ball Moeller pulled the ligaments in the region of his left foreign and had to retire before the same of the same of

"You're a fakir, Mike, but I'll tryour advice—it doesn't cost anything," the ball player retorted as he hobbled to the elevator.

The Cubana, Acosta and Calvo, were entertained at dinner Friday night by Affred De Gro, the famous pocket billiard player, and one of their own countrymes. De Gro is a great beasing and seldom misses a game at the Polo Ground.

Nick Altrock made the crowd roal during the closing inning of the morning game on July 4. A monater whistis from a near-by factory tooled the noon hour, and Altrock, who was couching on the first base line cried! "It's 10 clock boys, all union men quit work when the whistle blows. Stop the game, tank, or the athletes will be sending in billis for over time."

Oriti's catching staff continues to be the envy of every major league manager in the Ban Johnson Circuit. John Henry was never better in his life than right now, while Ainsmith too is doing great work. As for Rippy Williams, the big boy is about the best pinch hitter in the business.

will go to Montreal, as the Canadians kicked in with the best offer for the Washington players, and the suddenness of Griff's act in affiling for walvers and disposing of the former Tiger star has set other veterans on the local club thinking, for they know not where the next ax will fail.

The fact that Joe Boehling his shown his gleague caliber and will from now on he pitched in his turn probably forced lift to dispose of Mullin.

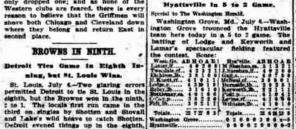

A double-header is slated for tomorbias, get-away das, and as these games have been extensively advertised in the New York papers, a big crowd is expected. Engel and Boehling are Griff pitching selections, while Manager Chance has his entire staff from which to select, with the exception of Warhop and McChonell. The chances are that Fisher and Ford will do the honors for the Yankees.

Griffith is one manager in the American Loasue who believes that the Athletics and beauten out for the pennant. Strange to claim, the thinks that the National Capitale and beauten out for the pennant. Strange to claim, the thinks that the National have a fighting chance to turn the trick.

Willie Ritchle Can Meet Either Welsh er Cross.

San Francisco, July 4—Champion Willie Ritchle will not want for matches if he feels like getting back into the ring soon. Already Leach Cross. Harlem fromny Murphy, and Preddle Welsh have filed applications for a chance at the light-weight title. There is a possibility that Ritchle will make his next appearance in the ring in September. Promoter Springer, of Yancouver, British Columbia, is auxious to get Willie to box Freddle Welsh at the Brighouse arena, and a big house will disastedly greet the champion if he met the English titleholder in the Canadian city. Springer has made Ritchle a good offer, and it is stated that Willie is inclined to accept. Leach Cross, by his decisive-victory over Bud Anderson, has forced himself into the front rank of championship contenders. Having removed see Mandot and Knockout Brown from his path toward the top of the heap, Anderson was figured as a sure winner over Cross by the Loe Angeless fight followers, but the New York dentist won easily from the Medford hoy.

Cross gave an impressive exhibition on the Fourth of July, and is entitled to a lot of consideration. The premoters probably will find him giood card from now
